‘Don’t be scared,’ the alien laughs, ‘Nice to meet you, my name is Tommy. What is your name?’ ‘M....My name is Tom.’ ‘Do you want to go on a journey?’ ‘A journey? Of course! Where are we going?’ ‘Later you will know,’ says the alien.

The alien takes my hand and says, ‘Please take us to the most interesting park in Hong Kong!’ a light begins to shine around us. A few seconds later, we arrive at an aquarium.

‘Wow! The fish are so beautiful!’ Suddenly, a huge shark swims to us. It opens its big, red mouth. Tommy takes out a machine, which looks like our camera and takes a lot of photos. We also visit the cute penguins and a beautiful parrot.

Next, we go to play some exciting games such as torrent and roller coaster. The roller coaster is so fast! We scream and laugh.

At around five o’clock, the sun sets. Tommy is about to go home to Mars. It’s time for me to go home too. We get back home in a few seconds. And we say goodbye to each other.

 **Meeting An Alien**

P.2 Tse Yat Hei

Today, I have a big dinner with my family at home. Then I sit on the sofa and watch a cartoon. Suddenly, an alien comes out from the TV. I feel very excited to meet an alien. It can speak our language. I ask it why it comes from the TV. It says it has a mission to introduce its planet to one friend on the Earth and invites me to go on a journey.

The alien is called Pan Pan which looks like a monkey with long green hair, three red eyes and two long tails. Its height is about 100cm. I am at least 15 cm taller than it.

We go to its planet by a spacecraft. The spacecraft is large and long. In the spacecraft, I also meet Pan Pan's family and friends. They are very nice and we sing different songs on the journey. I am happy to meet these aliens.

We finally arrive at its planet which is one of the planets in the space and is smaller than the Earth. On its planet, we go to a park with beautiful flowers. We run around and play games with other aliens in the parks.

I start feeling hungry. Pan Pan said I should go back to the Earth because the food in its planet is not suitable for me. Therefore, we go back to the Earth within one hour. Pan Pan says we are friends now and it can bring me to its planet once a month. What a wonderful journey and I can go to a different planet with an alien!

The name of the alien is Kinky. It has a long curly hair, big nose, two purple eyes and four big mouths with two small ears. It has a long body, a short hand and a long leg.

We go together into outer space using the spaceship. We played a lot of games. I taught some alien children on how to read and write English. We jumped up and down and chased one another. I liked the feeling of floating in the air. I am so happy.

After the games, we took a break and the mother alien prepared snacks for us. It looked so yummy but it tasted so spicy. So I cried out loud, suddenly my mum woke me up. It was just a dream. It's time for me to brush my teeth and take a shower and get ready for bed.

Friends from Mars

P.4 Lau Yan Ki

One day, I woke up and found myself inside a spaceship. It was so quiet and seemed nobody was there. I walked around the spaceship and found a picture of aliens which were green. They had three big eyes and four short arms. They has two long feet with six toes each. Suddenly there was a loud noise and the spaceship started to move. It moved very quickly and popped out of the earth into space towards Mars. I was scared but excited to see new creatures on Mars!

After I arrived on Mars, I found that there were lots of volcanoes and deserts. I was frightened and shouted, "Hello, is anybody there?" a ball bounced up in front of me and turned into a robot. He replied, "Welcome to Mars! My name is BB-5. I am the assistant of my master. I will guide you around our home. Follow me please." We sat in a funny-looking mini-rocket and BB-5 drove me to a place called the "Tree Mountains". It was such a beautiful place. I had never seen anything like this on earth. There were lots of strong and sturdy trees and stretches of grassland. So many different creatures made their homes there. They crawled up, ran down, dug under, and pokes their heads out. What a wonderful scene! I wish I could bring everything back to Hong Kong.

We got through the "Tree Mountains", and arrived at a triangular palace. It was made of crystal and gold in colour. The aliens are living inside. They looked like the picture in the spaceship. They were bored because they had no new friends. They were happy to see me and they wanted to make friends with me. I taught them how to play "rock, paper and scissors". We set a game rule that they were not allowed to use their four hands together. They could only use two hands at one time. They enjoyed the game very much!

Time flew. They told me that I should go home. They asked BB-5 to send me home. They said they would visit me in Hong Kong next time. I am happy to have friends from Mars. I wish I could visit them every weekend.

Friends from Mars

P.4 Wan Chun Hin

I woke up and I found out that I was in a spaceship going to Mars.

A few seconds later, the spaceship stopped. The spaceship door opened. A guy with blue eyes, green skin and silver jacket was standing outside. He waved to me and made some noises which I didn't understand. I could only

respond to it with my body language. I saw it press a button on its belt and then an understandable voice came out.

"My name is Trimic and I am the police of Mars. How are you?" he said. "I am Ernie and I come from the Earth. How are you?" I replied. "I am not so fine and I need your help. We have a bad guy name 'Zurg' who is destroying the green plants on Mars. It is worsening the air. We must stop him. Please come with me and arrest him." Then, I followed Trimic and his colleagues to find Zurg.

Later, we saw Zurg burying the trees and making bad smell and dark smokes. Trimic used the laser gun to shoot Zurg and it was not useful. At this moment, I took out my "Oxygen Gun" and shot Zurg. Then, he fell down. Because Zurg was afraid of oxygen and he could only stay alive with carbon dioxide. This was why he hated the green plants which releases oxygen. Finally, Zurg was under arrest and was put into jail.

I became a hero as I helped the Mars police to catch Zurg. They tossed me high into the air but suddenly they disappeared and fell on the ground harshly.

"Boy, it's time to wake up and go to school." Said Daddy. I opened my eyes and saw a green bird standing on a tree and singing. That was a wonderful day! I must do the environmental protection well and keep the Earth in good health!

Friends from Mars

P.4 Cheung Chit

It was a sunny day. I was in bed. I was snoring. I heard some voice. “Knock knock!” Who is knocking at the window? I woke up and found out that I was in the spaceship! I looked out of the window and saw something weird, something blue and spotty but cute. It has four pairs of big eyes, nine nose surrounding its only mouth and three pairs of ears! They came in and said, “Pleased to meet you! We are people from Mars, please follow me.” Then the spaceship flew to Mars.

We opened the door and left the spaceship. I looked around and I felt very amazed because there were so many red flowers, red raindrops and so much more red things! There were two suns! I followed them to their home because they invited me to join a party at their home. We arrived their big house. The house had a big door. It was blue and white. There were two big aliens, mother and father. They were so happy. They welcomed me to join their night time party.

At the party, I ate a chili ice-cream, a piece of tomato cake and a packet of strawberry chips! When I was eating the chili ice-cream, my tooth hit something hard. I took it out and figure out that it was a big red ruby! They said, “This is your souvenir. We use a very rare material to make it, you’re so lucky!” I was so amazed. Then one of the aliens pushed a button on the ruby, it opened up the ruby and an image of them showed in mid-air. The alien said that it’s a Holographic Communicator, you could communicate with us when you go back to Earth. I was very pleased. Then we danced on the table. I taught them how to play Minecraft. We played for a long time. We had a good time at night.

At last, I said goodbye to them and went to my spaceship. On the spaceship, I was so sleepy so I want to sleep. When I woke up, I was still holding the ruby in my hand. This is not a dream!

 **Friends from Mars**

P.4 Choi Chin Nok

One day, I was sleeping softly.

Then, I woke up I found a screen showing a line. 'This is a trip to Mars.' I realized it was a trip to Mars!

After the spaceship arrived at Mars. I opened the door. Then, I saw four Mars children. They looked like minions. Their skin was yellow. They had metal hands. Each of them had two fingers and four feet. They were so fat. They had little hair. I thought they liked eating bananas very much because they were all eating bananas happily at that time.

It seemed that they were funny. I would like to make friends and play with them. So, I walked to the front of them and introduced myself.

After a while, a Mars child said, 'My name is Bob, nice to meet you. This is Ben, Ada and Alex. We are friends now. I know you're unfamiliar with us. Let me tell you an interesting fact. When we are happy, our skins will turn blue. When we are angry, our skins will turn red.'

I asked Bob why they all liked eating bananas. Bob did not answer me but he then took me to the largest banana farm in Mars. I had never seen so many banana trees before! Bob gave me a banana and I ate it. It was so yummy. "The bananas are tasty because of the special weather conditions in Mars. This kind of bananas is unique in Mars. I love it, don't you?"

Time passed quickly. Bob, Ada, Alex and Ben had to go home. So, we left the banana farm. Suddenly, I stepped on a piece of banana peel. I felt dizzy and fell down. I could not feel anything. After a long time, I woke up. I was on my bed! I realized that the space travel to Mars was an adventure in my dream.

I love Mars a lot because I met some new friends, ate many delicious bananas and had a nice day with Bob, Ada, Ben and Alex.

I want to create a new festival which is called the Toys Festival. It is because I want to make some new friends and I love toys. The Toys Festival is on 19th July as all the children are on their summer holiday.

The children can bring one toy that they love best to the park which is nearest their house, then they can play together. They can also have a picnic in the park. They can share some snacks, fruit, sandwiches and drinks. They can fly kites too!

The children can bring one toy that they seldom play. They can exchange the toys with others. The old toys can be reused. It can reduce wastage. The children must make sure the toys are not broken.

A Special Journey

P.3 Cheung Pui Hang

‘What a nice car, Peter?’ I asked. ‘Yes, this is my new car, it is a super car!’ said Peter. ‘How super is it?’ I asked. ‘It has many functions. It can fly and talk! Let’s try and take a ride together. Ha!’ said Peter. ‘Wow! We are flying in the sky, the clouds are just next to me. The car can fly very fast. You just tell it where you want to go, then it can take you there immediately.’ said Peter. ‘Let’s go to the sea where we cannot drive normally.’ Peter said. ‘Ok, no problem!’ said the car. Just a few seconds we are flying above the sea. I saw many fish, boats and a beautiful island.

I asked the car, ‘Can you sing?’ ‘Sure!’ said the car. On the way, it sings a lot of songs to us. Actually, it is not pleasant to listen to but we still enjoy it.

What a funny adventure today! I need to write in a diary about it. Thank you Peter, thank you super car!

It is time to go home. My mother is waiting for me.

 **A Special Journey**

P.3 Tam Chi Ching

Hello! I'm Gigi. My best friend is Zoey. She has a car that talk and fly.

One day, she came to my home, she told me her dad promised to take me for a ride. I was surprised. Very soon, she pulled me into her dad's car.

"Set on and fly through the ocean. Then fly across the river. Next, fly across the woods!" said Zoey. It scared me. Then the car answered her, "OK!" it repeat, "Fly through the ocean. The fly across the river. Next, fly over the woods! Alright?" "Yes, alright!" said Zoey's dad.

When we flew over the ocean, the car became a boat. It's scared me again! Next, we flied across the river. Then we flew into the woods. We went to the woods' centre and had a picnic there. I took out some bread, some toasts. Zoey brought some juice. Zoey's dad brought a little blanket too. We put the blanket on the grass and we shared the food together.

Suddenly, a little torch fell onto the blanket. Zoey's dad said, "Let me see. This torch can help us to go back home. We can play at night!"

At night, Zoey's dad said, "Let's go back home." Then he quickly switched on the torch. "Oh no! We became smaller!" I said. It was because Zoey's dad pressed the torch's button and it shined on us. So we were getting smaller. Zoey's dad looked at the torch. He found a little memo. It wrote, "If you want to get bigger, you need to go through the Ghost Mountains. Then pass through the broken bridge. At last, steal the cuckoo's flower. Then you will become bigger."

At last, we became bigger again. Zoey's dad drove his car back home. I said goodbye to my friends and went to sleep. What a wonderful and scary trip!

***I can fly!***

P.4 Chau Kar Lai

I opened my eyes one day and found out I have a pair of white wings on my back. Then I discovered I could fly.

I got white fur on my whole body. I looked like a polar bear but I had a pair of wings. It was so funny I thought! Although I had a big body, I could fly very fast, so I used my power to fly through all the clouds. Suddenly, the door opened. I went inside and then the door closed. I didn't care and I saw some treasure. I saw some gold, pearls and diamonds. I took them up but the big monster said, 'You can't steal them because it's bad!' Then the monster ate me and I woke up.

Actually, it was a dream and I know I didn't steal anything.

***I can fly!***

P.4 Chan Yiu Hey

Last night, I needed to finish all homework and a project. There were over 20 piece of homework. So I worked all night. When I was doing this. I was too tired and slept in front of the desk full of 'enemy'.

I woke up in the morning. I saw that my sleepy body wasn't on my wheelchair. It was in the cloud! 'How can I get here?' I asked myself then looked around. I found that I was in a giant bubble. There was a remote control with 'up' and 'down' buttons on it. Maybe it could control the bubble, which means I can fly! I flew around but then it didn't sound so fun because there was too much aircraft flying around and I have no friends to play with. Suddenly, an airplane broke the bubble and I fell. 'Help!' I yelled.

'Ah!' I screamed while I was sitting on my wheelchair in front of my desk. 'Phew. It was just a dream. Wish I can have "I can fly" episode 2 of the dream now.' I said.

Five seconds later, I had an idea. 'I got it! Mum, I want a jetpack!'

 ***I can fly!***

P.4 Lai Man Him Joshua

I opened my eyes one day. I found something weird about myself. Then, I discovered that I could fly up to the sky.

In the afternoon, I went to the shopping mall to go for a walk. I saw a thief pilfering a woman's handbag. He ran and ran and ran. The police couldn't chase him. I spread my wings and tried to overtake him. I just used my new power so I couldn't fly very well. Unfortunately, he escaped. After this incident, I found that there was something unfair in this world. Therefore, I wanted to use my special power to save the weak. I hadn't got used to flying. So I must practice a bit more before I save this world.

After few days, I could fly extremely well. I have caught a few thieves and I was getting famous. Therefore, the public gave me a name, 'Flying Man'.

One day, I went to the airport and picked up my cousins. Suddenly, I heard an announcement say that there is a bomb inside the plane. I decided to save them. However the plane is taking off so I must use my fastest speed to stop the accident from happening. When I was flying, the place was totally different so I have stopped for a while to look what had happened. I saw some big ships flying over my head. It's similar to my favourite movie 'Star Wars'. 'Oh! It is X-Wing fighter!' Some people shouted. The name of the ship appeared from 'Star Wars'. I was so surprised! Suddenly, I felt hot. I found that the wings were nearly burnt! There was no water.

There was only a knife inside my pocket. I took my knife out and cut off my wings. However, I forgot that I was up in the sky and I fell into the sea. I felt dizzy and fell asleep. When I woke up, I found someone standing beside me. ‘Are you okay?’ said the man next to me. ‘I am Jedi.’ The man said. ‘What year is it?’ I asked. ‘It is year 3921 and it is now 12 pm.’ ‘What? I traveled time! But who are you, Jedi?’ ‘Jedi is to protect the Galaxy!’ he said.

I think I have really gone to the Star Wars period and I need to go to back where I am from.

‘I can give you a ride, but there is no pilot. Oh, let’s speak to Han Solo. He’s the pilot the Millennium Falcon, it’s the fastest ship in the galaxy.’ Jedi said.

Han Solo is bringing us to Millennium Falcon. Suddenly the ship exploded! Jedi and Han Solo were dead. No....

“Joshua. Joshua! Wake up!’ I open my eyes. It was just an exciting dream.

I can fly!

P.4 Yancy Lau

If I could fly, I would be a little pigeon. I want to fly to Australia. I would like to visit the Great Barrier Reef because I want to see the green sea turtles. They are one of the endangered species. I also want to go to Ayers Rock. It is a huge rock. The colour of the rock will change depends on the time of the day and the weather conditions.

If I could fly, I would fly to London. It would be eye-opening for me to visit the Buckingham Palace. There is the home for the royal family. It is furnished and decorated with priceless works of art. I also want to visit the Big Ben. It is a huge clock tower. It is also the biggest bell in England.

If I could fly, I would fly to the clouds because they are as white as cotton candy. I would like to sleep and have a great dream there, I would also like to go to somewhere Mrs. Rainbow appears as she seldom shows up in Hong Kong.

If I could fly, I would travel around the world!

 **Treasure Hunt?**

P.5 Ko Hon Yiu, Yoyo

One day, when I was sleeping, I was woken up by a talking parrot. 'I know where a treasure is buried,' it squawked. 'Eeek! A talking parrot!' I screamed. But nobody responded to my scream. 'I know where a treasure is buried,' the parrot repeated.

I tried to comfort myself. After a while, I asked the parrot, 'Where are you from?' 'I'm from Captain Matt's ship,' replied the parrot. 'Can you take me to the treasure?' I asked.

No sooner had I finished speaking, I found that I was teleported to a beautiful beach, and right in front of me was a pirate ship. The parrot invited me into the ship. I saw a man with a pirate hat.

'Yo ho ho! Good morning! I am Captain Matt. You are here because a monster captured your parents. You need to save them and bring me the treasure. But beware of the monster's eyes. If you look at her eyes, you will become a stone statue forever. So good luck and don't be scared.' Captain Matt said.

'Oh! It's Medusa!' I thought. But I was very confused. Medusa was only a myth. It's not real! However, for the sake of my mum and dad, I decided to try once.

Captain Matt let me sail along with his ship to Medusa's lair. I got off and heard Medusa's voice! I searched my pocket and found a makeup mirror which I forgot to put back into the bathroom. I covered my eyes and raised my mirror.

After a few seconds, I heard a wail. I opened my eyes and saw a stone statue. It was really Medusa!

I went into Medusa's lair. There were loads of bones scattered around the floor. I found mum and dad and the treasure in the secret room.

Back to Captain Matt's ship, he gave me and my parents lots of gold. When we were heading back to the beach, a storm suddenly came. The big waves made me seasick. Just then a bolt of lightning hit the ship and it sank instantly. I heard the cries of the pirates and fainted.

'Wake up! You lazy pig!' yelled mum from the kitchen. Actually the interesting trip was a dream!

Treasure Hunt

P.5 Chan Pak Hei, Tank

I awoke and saw a parrot. 'I know where some treasure is buried,' it squawked. I was shocked. Suddenly, the talking parrot became an umbrella, when I picked it up I disappeared with it...

Amy was a little girl, she was tired and fed up. The wagons were stuck. They had been stuck for two days/ her family was on the way to find the treasure. Amy went to the woods and found a lot of tasty berries, she didn't stay close to the wagon. She just went on and on. At last, she knew that she was lost...

The magic took me to the woods where Amy was. Amy was amazed. She had never seen a child like me before! We walked through the forest together. Suddenly, we heard a strange voice. A bear came out of the trees and ran towards us. We were frightened. At that time, the umbrella shook and spun round and round.

The bear stopped. He was afraid of the umbrella and ran away. A little boy called Fox came. He was lost too. We were so hungry. Fox brought us to a river and put his arm into the water. Suddenly, he caught a fish, we were surprised.

Fox made a camp fire. He made it with a bow and a stick. I said ‘That’s amazing!’ We had a special night. Then, the umbrella turned into a tent. We slept in it. The next day, we found a bottle. We opened it. A fierce genie came out of the bottle and said, ‘Thank you so much, I am free now! Ha ha ha ha!’ ‘Before I kill the man who put me in it, I would like to eat you all first.’ He flew towards us and became a dragon. He breathed fire. We ran to the forest as fast as we can but the dragon was faster than us. He blew fire on us, then we fizzled.

When we woke up, we saw a man who was very old. He gave us some medicine and a comfortable place to rest. However, the genie came! He destroyed the village and said, ‘Hason! Where are you!’ the old man came, ‘I am here.’ Then genie used his magic to fight with Hason. We fought too. Suddenly, I saw the genie’s head had a pearl. I took the pearl and used all my strength to break it. The genie became a key. Fox took the key and opened a chest. There was nothing inside. Someone had taken whatever was inside already. But the parrot said, ‘The treasure is already yours’. The treasure was confidence. “Do you know why you can kill the genie? It was because you have confidence!” At that moment, I realized that confidence was the most precious thing in the world.

The next day, we found Amy’s family and Fox’s family. Finally, the parrot took me back home too.

Treasure Hunt

P.5 Yau Wing Lam

I was awakened by a talking parrot this parrot. It told me that it know where a treasure is buried. It gave me a map and a key. It also asked me to sit on its back.

The talking parrot took me to a tiny island in the middle of the ocean. "Oh no!" I groaned. "We're on a bare island with only one tree in the middle. There's nothing here." Suddenly I saw a boat, but it was a long way off. I waved and shouted. The boat turned and came towards me. "Hooray! It's coming!" I yelled. There was a boy sailing it. I let him see the map.

He took us to the island shown on the map. The island was very big but missy where seems to be no one go to island for a long time. We were tired and slept on the boat. At the mid-night, we heard some strange noise. We were afraid but curious, we tried to find out where the noise came from. We went to a forest and saw a man running towards us. He had a long black beard a long hair. "Who are you?" we shouted. The man told us that he went there for treasure hunting. But his ship had been wrecked on the island. He has lived in a hut alone for four years. After that, he showed us a big chest. "It was washed up in a storm." He said. "It might be full of treasure, but I can't open it. I don't have the key." "I have a key. Maybe we can try?" I said. I opened the big chest. Then something terrible happened. There was a loud bang and a cloud of smoke. An evil genie shot out. "Ha! I am free at last!" shouted the genie. "I hate all people!" He puffed out his cheeks and blew very hard. We all fell into the sea. "Help! Help! I can't swim." I cried. At that time, the parrot became bigger and bigger. It picked me up in his claws. The parrot rescued me and took me back.

"It's time to go to school! Mum said. "Mum, have you seen a parrot in my room?" I asked. "Nothing! Wake up! You will be late!" Mum said angrily.

Treasure Hunt?

P.5 Hui Hiu Tsun

‘Wake up! Wake up, Jessie. I know where a treasure is buried!’ a parrot squawked. I was awakened my talking parrot, Noisy. ‘Really? Tell me how to find the treasure.’ I yelled with an exciting voice. Then, Noisy gave me a map and said, “Don’t shout! I stole it from your friend, Ryan.” I could not wait to start the adventure! According to the map, the treasure was buried in the graveyard of St, Mary Church.

We set off to the graveyard at night. When we arrived at the graveyard. It was dark, cold and spooky. Rows of tombstones stood erect in silence from left to right, from the front to the back, like the sea of the dead. I was so scared that my legs were trembling. Noisy stood on my shoulder and his voice started to tremble as well. I walked slowly through the graveyard and then turned right. I followed the path straight ahead until I saw four strange words on the ground: ‘hcruhc eh tot og’. It must be a secret code. I thought it was and over for a long time. Suddenly, I realized that the message could be found if I read it backward. The secret message was: ‘go to the church’.

I went to the church immediately. I found a big cross that was marked on the turf. I started to dig with a fallen tree branch. Soon, I saw a small box. My heart was beating with excitement while Noisy was flapping his wings furiously. I opened the box and found a piece of paper. It said, “Dig deeper and harder”. I shouted with frustration and dug again. When I was about to give up, I spotted something. I picked it up and looked at it carefully. “It was a bone!” I screamed loudly. At that moment, I heard someone laughing. It was Ryan. “This is what you deserve because you’re too greedy and Noisy is too noisy!” said Ryan.

Although I was mad, I have learnt a lesson. I realized that it was totally wrong to dream of getting rich without working on it.

Treasure Hunt

P.5 Lam Wai Shun

This morning I was awakened by a talking parrot. ‘I know where a treasure is buried.’ it squeaked. ‘What? You know where a treasure is buried?’ I yelled, then I called my best friend, Steve. We met at the bus stop.

First we followed the parrot to a cave. We walked into the cave. It was very dark. I kicked something and I looked down, ‘It’s a skeleton! Help!’ the parrot gave us two swords. Suddenly we heard something horrible! ‘Oh no! A giant snake is coming at us! Run, Steve, run!’ I screamed. Steve used the sword to attack the giant snake. Finally, it dropped the treasure! They were books!

Books are truly our best treasures!

Chubby Bobby

P.4 Tang Shun Hei

Oh No! Chubby Bobby is fat and unhealthy! He needs to follow my advice to change.

Bobby had bad habits. He liked eating a lot of meat. Meat can give us energy but eating too much meat is not good for us. He only ate a little fruit and a few vegetables. Fruit and vegetables are good because they contain different vitamins and minerals. So he must eat a lot of different vegetables. He ought to eat less junk food and drink fewer soft drinks because junk food contains a lot of sugar, salt and oil. They can give us energy but they also make us fat. Soft drinks also have a lot of sugar too!

Bobby did exercise during PE lessons only and went jogging once a month so he ought to change to make himself stronger. He needs to do more sports such as playing badminton once a week.

If he follows my advice, he will be a very healthy boy.

To be a healthy kid

P.4 Yeung Hui To, Tikva

Bobby had bad eating habits, he needs to change them. First he needs to change his mind so he will not want to eat too much.

He liked eating lots of meat and snacks but only a little rice, fruit and pasta. He only ate a few vegetables. If he keeps these bad eating habits, I am sure he will become much fatter!

Bobby seldom did exercise too! He only did exercise during P.E. lessons and went jogging once a month. I would like to give some advice to Bobby. First, he needs to have a balanced diet. Bobby needs to eat more grain products, fruit and vegetables but fewer snacks and less meat. And, the most important point is also a balanced diet.

The next thing to address is the amount of exercise. Bobby needs to play ball games three times a week, go hiking three times a week and go swimming once a month to make himself healthy.

I hope Bobby can follow my suggestions and be a healthy boy.

A letter to my younger self

P.5 Leung Kai Chung

Dear Kelvin,

How are you? I am now working as an artist at Avenue of Stars in Tsim Sha Tsui. I meet many people from Hong Kong and other countries every day. I need to speak good English and Mandarin with them. Do you remember you disliked learning English and mandarin when you were young? I can't talk fluently to my customers if I am not good at these languages.

Do you remember the first time you took part in a drawing competition when you were in Primary Four? You didn't win any medals and cried as you were sad. Mum, dad and your teacher, Miss Fong cheered you up. Later you got a gold medal in Youth Art Competition in Sha Tin. You were so proud of yourself.

Kelvin, I would give you some advice, please do revision every day. If you have questions, always remember to ask your teachers. You can also look up words in the dictionary. Don't give up! You can read more books to improve your English and Chinese.

I wish you good luck and good health.

Love,
Kelvin

A letter to my younger self

P.5 Kwan Yuet Yin

14th February, 2025

Dear Eunice,

Hi! How are you? I'm glad to write this letter to you. Why? I know you are facing some problems now. So I would like to tell you my story.

I am a Hong Kong Swimming Team member. I participated in the 2024 Olympic Games and was representing Hong Kong. I was in the 8th place in the finals of 50 meters backstroke. Even though it was the 8th place, I was still undoubtedly the pride of Hong Kong.

I wanted to give up on swimming before. I met lots of stress and frustrations. In the end, I managed to overcome my difficulties. I couldn't have done it without my families and friends, their encouragement and hope on me inspired me.

I had a goal to become a world-class swimmer, so I trained and worked hard. If you did this, you have taken the first step to success. It is every athletes' dream to compete in the Olympics. I lived my dream, you can too! Never give up! Be brave! Be strong! Your dreams will come true.

P.S. If you want to know who I am, take a look in the mirror in 2025.

Yours truly,

Miss E

A letter to my younger self

P.5 Yip Hiu Ying

Dear me,

I just celebrate my 20-year-old birthday with my close classmate in the restaurant in the University after the last lesson today. I was excited but feel lonely after all of them left. However, I am now sitting in the library and watching the charming sunset through the window.

It is the right moment to review yourself with deep insight, rather than passing another twenty years with missed chances, silly decisions and lead to hardship in life. Maybe you have vague memories on the persons you have met before, but they might affect the personality. Maybe you have forgotten the details of the things you have experienced, but these things come up to shape who you are now.

Do you remember the people that you hurt in the past? You might not have hurt them by beating them. Instead, your rude and ignorant acts hurt them. Please recall that you have laughed loudly at a young disabled girl who sat on a wheelchair. She then wept because of you. I could not blame you since you were only ten years old at that time. And, more importantly, you didn't do similar things after your mom told you to apologize.

It is common that a person does silly things during their teenage years. But some may lead to serious effects that may harm you for long time. At the age of twenty, you got lots of close classmates after you became a secondary school student. However, you were so easily affected by your friends. You shoplifted an expensive ball-pen in a stationary shop. You were caught by the smart shopkeeper. Feeling shame, you immediately burst into tears and begged for his forgiveness.

Your parents rushed to the shop after the shopkeeper phoned them. They felt quite heart-broken and tears dropped from your mom's eyes. They begged the shopkeeper to forgive you and not to call the police. Did you remember how deep you hurt them? Luckily, the shopkeeper was a generous person and just blamed you for a while.

Please think carefully before doing anything. You had always get into trouble because of your carelessness and selfishness. You could notice their hair turned grey, more wrinkles appeared on their foreheads as you grew up. They gave all their best to you even though they were not rich.

On the other hand, you were an active, energetic person. You easily made friends with others because you were easy-going, helpful and liked to serve the others. You were kind and good-tempered to the others. For the thing you liked to do, you would put your most effort and diligence on them. For this reason, you got admitted to a good university.

Your parents were proud of you although you were sometimes emotional and careless. You were growing with so much love and luck so please continue to share what you can do in your future.

Hope you can keep on your wise direction and choice without regret in the future.

All my love,

Me

I am the only species on Earth

P.6 Chau Sik Kiu

Today is 8th October, 2026 and it is also my birthday. I am the last panda to survive on Earth. Why am I the only panda on Earth? We have to look back to 2016. At that time, there were fewer than 1800 pandas living on Earth. My companions were all living in Bamboo Forest near Si Chuan. Their living environment was better then. There was a lot of bamboos to eat and the air was cleaner and fresher. There were more rivers and waterfalls. They could drink clean water every day and they could sleep everywhere comfortably. They all lived happily.

However, greedy people hunted them for their fur and sold them to other countries as pets. Furthermore, the bamboo forests were destroyed by people too. They built many factories and their population grew rapidly. They occupied our land. The air, water and land pollution became more and more serious. Our companions didn't have enough food to eat. Many of them lost their homes. With less food, many of them died because of starvation.

Therefore, nowadays I can only live underground. I am scared to go out in day time because I am afraid I might be caught by a human. I can only go out at night to look for food. I can only eat insects and rubbish that are thrown out by humans. I cannot sleep well because I miss my companions very much. I feel lonely and no one can chat with me.

Now, I hope some of the human scientists can reproduce a companion for me, so that I can have a friend. Furthermore, I hope people can protect the Earth and stop destroying the environment too. Unless people are willing to reduce the impacts to the environment, all living beings including humans will become extinct too, just like us.

I am the only species on Earth

P.6 Lee Yuen Lam

I can't believe it! I am the only Chinese White Dolphin left in the world and most of the other animals are extinct. Humans are to blame for this.

At first, I thought the development on land will not affect us but I was totally wrong. Humans kept dumping rubbish like plastic bags into the sea. Therefore, our oceans were seriously polluted. What selfish behaviour!

When I was small, mum told me humans were greedy. They used bigger nets to catch more fish even though it was dangerous to us. Whenever I was swimming near the water's surface, I was afraid that I might be caught by the big fish nets and die.

The most unexpected thing was land reclamation of Victoria Harbour. The construction noise disturbed our daily life. More and more boats sailed around the harbour. Many of my friends crashed into the boats and died. Humans were very uncaring and unthoughtful. How could they do these things to us?

To survive, I stopped swimming close to the coast. That is why people never see me anymore and young children don't know what I look like. Because of overfishing, I am forced to eat mud. Yesterday, a boat nearly crashed on me because I was too weak to avoid it. All these days, I have been suffering. I really don't know how long I can live like this!

It is sad and lonely to be the only Chinese White Dolphin left in the world. If humans are clever enough, they should change their minds and stop polluting the Earth. Otherwise, they will face the same fate as mine.

I am the only species on Earth

P.6 Yeon Kai Shun

My name is Leo. I am a monkey. I am one of the last of my species on Earth. Because of humans, most of the other animals are also extinct.

Humans destroyed the earth. They polluted the sea. Fish are dead. There was air, land and water pollution. They also cut the trees and over-hunted animals. But the worst was the world wars. There was World War III and World War IV. The humans used the nukes to attack each other. More than 35 nukes were used in World War IV. More than three billions humans were killed in these two world wars. Moreover, this also destroyed nature. Most forests were destroyed in the big explosions.

Luckily, I still had some friends with me. We found a forest which had not been destroyed. There was enough food for us to eat. Therefore we survived here. We had children and we live happily together.

Regarding the humans, they are very selfish and cruel. They hunt a lot of animals, like snakes, tigers, and foxes. They just think about themselves. They pollute the water, air and land. But the other disasters are even more terrible. I hope the humans can stop destroying the Earth and stop polluting nature.

I am the only species on Earth

P.6 Chan Wai Chi

Humans destroyed the planet. Most of the animals are extinct but I am the last human to survive on Earth.

When I was hungry, I went to a deserted market to get some food and I found some remaining animals to eat. I was live in a log cabin which is made by me. Although I was finding some animals every day, I could now find nothing.

One day, I found a field with a lot of rice seeds. I was very happy because I had a lot of food. I cultivated it every day. Finally, the rice was growing up! I was quick to reap the rice. On that night, I used them to make my dinner. I felt full that night.

I was tired so I went to sleep. I thought if we did not destroy the planet, we might have lived very happily. But the fact is, we did not have environmental awareness so we have become close to being extinct!

25 hours a day

P.6 Yu Chak Yan

Every day, we have 24 hours, we spend most of our time at school learning, doing homework and revisions. How about having an extra hour today? It would be a bonus for me. I could do something I couldn't do normally.

If I were given an extra hour today. I would like to make some pretty clay dolls because I usually have no time to do. First, I would go to Mongkok's Art Supplies Professional Limited to buy some good quality clay. Then, I would quickly rush back home and make some Disneyland Tsum Tsum clay dolls they are really cute. And I would like to give these clay dolls to the teachers and classmates in the graduation ceremony.

I think it would be fantastic to have one more hour today. I can relax when I am making crafts! Would this come true one day?

25 hours a day

P.6 So Yan Wing, Lydia

If there was one extra hour today, some might choose to sleep for one extra hour to take more rest; some might work the extra hour to earn more money. But I would like to spend the extra time with my friends instead.

For that extra hour, I would play with my friends because we do not usually have free time to spend with each other. We would play some childhood games such as hide-and-seek, playing games with bamboo sticks, playing 'the birds swoops down on its prey' and so on. All are unforgettable experiences to me. Through these fun activities, we would enhance our bonding. I would be happy to play with my friends in my spare time and so get close with each other.

Nowadays, most people tend to play more with electronic appliances, such as video games or computer games. They are alone and isolated from other people, so they lack social interaction and communication with others. Having a social life is a precious thing, therefore I would spend that hour with my good friends.

A better you and me
